

**Position: Avionics Technician  
Gillespie Field (KSEE)  
El Cajon, CA (San Diego County)**

Are you passionate about aviation? **Neal Aviation**, San Diego's premier aircraft avionics company, is expanding and looking for experienced aircraft avionics technicians. We offer an exciting career, competitive salary, healthcare and retirement benefits. Come join our team!

**Job Description:**

**Aircraft Avionics Technicians** duties to include: perform inspections, testing, troubleshooting, equipment removal, installation, configuration, software updates, maintenance, and repair of aircraft instruments and avionics components using standard electronic test equipment and specialized tools to meet AAFRs, STCs and industry standards. Manufacture and install sheet metal provisions to support avionics, electrical harnesses and cabling.

**Qualifications:**

- Technical expertise and leadership in performing avionics testing, repair and troubleshooting per industry standards ensuring quality and efficiency of installation.
- Experience with Garmin, Bendix King, Aspen, Honeywell and Collins preferred.
- Experience with avionics and electrical testing equipment, hand tools, wire strippers, crimpers and soldering.
- Ability to interpret wiring diagrams and electrical schematics.
- A&P License, FCC License or Repairman Certificate preferred.
- 4+ years experience in aircraft avionics or accredited avionics schooling with at least 2 years hands-on technical experience.

**Responsibilities and Expectations:**

- Safe, accountable, trustworthy and dependable.
- Ability to work independently and as an integral part of the team.
- Communicate with the team leads and other team members to ensure effective workflow and coordination between related departments.
- Ability to work in a timely manner and stay on schedule.
- Maintain a favorable working relationship with all company team members, vendors, and customers.
- Frequent standing, walking, bending, stooping, reaching, pushing and pulling required.
- Frequent work in small spaces, extreme temperatures and heights above six feet, noisy environments and flying.
- Frequent work with products, materials and chemicals associated with aircraft maintenance.
- Must pass FAA D.O.T. drug test prior to employment.
- Must possess valid state driver's license and pass company insurance requirements.
- Ability to lift 50 lbs.
- Willing to work scheduled shift and unscheduled overtime as needed.
- Maintain positive, friendly, professional company image at all times.
- Professional growth opportunities within the company.
- Other duties as assigned.

**Salary/Benefits:** Competitive salary commensurate with experience including:

- Medical Insurance
- Dental Insurance
- Vision Insurance
- 401(k) Matching
- Paid Time Off

**To Apply:** Please include a copy of your resume and cover letter.

**About NEAL AVIATION**

Founded in 2003, Neal Aviation provides custom avionics fabrication, installation, sales, service and troubleshooting for private aircraft. The company evolved from humble beginnings with just one technician performing mobile service calls out of a pick-up truck and quickly grew into a full-service avionics center and FAA Repair Station. Neal Aviation has cultivated strong relationships with major avionics manufacturers and offers a wide range of aircraft avionics products. They have become Southern California’s premier custom panel fabrication experts from their San Diego headquarters at Gillespie Field (KSEE) and additional location at Fallbrook Airport (L18). Neal Aviation services all types of aircraft including piston, turboprop, light to medium jets and helicopters. For more information, visit [nealaviation.com](http://nealaviation.com).
